Dear Sir / Madam,

**Sub: Power Purchase Agreement dated 29.09.2018 between the Govt. Girls PG College, Murar, and Azure Power Rooftop Five Private Limited ("Company")**

We refer to the power purchase agreement dated 29.09.2018 entered into between the Govt. Girls PG College, Murar, (the "Procurer") and the Company (the "PPA") in relation to 20 kW solar rooftop power project located at Govt. Girls PG College, Murar, (the "Project").

For the purpose of financing the Project, the Company has availed / is proposing to avail certain loans and facilities from the banks, financial institutions and multilateral agencies (the "Senior Lenders"), in accordance with the terms and conditions of the loan agreement(s) entered into between the Company and each of the Senior Lenders (the "Senior Loan Agreements") (details of which has been set out in Part A of Schedule I hereto), the Common Terms Agreement dated 6<sup>th</sup> November, 2018 entered into between the Company and the Senior Lenders (the "Common Terms Agreement") and other related ancillary documents.

Further, the Company is proposing to issue unlisted, secured, redeemable, non-convertible debentures on a

private placement basis to the banks, financial institutions and multilateral agencies (the "Debenture Holders") (details of which has been set out in Part B of Schedule I hereto), in accordance with the terms and conditions of the Debenture Trust Deed dated November 6, 2019 entered into between the Company and the Debenture Trustee (the "Debenture Trust Deed") and other related ancillary documents.

It is a requirement under the Senior Loan Agreements, the Common Terms Agreement and the Debenture Trust Deed that the Company shall ensure that all monies due and payable from the Procurer to the Company arising under or in respect of and in accordance with the PPA shall be deposited into the designated accounts as identified in the Trust and Retention Agreement dated 6/2/2020 entered into between *inter alia* the Company and the Account Bank.

In light of the above, we hereby request you to kindly make all payments legally due and payable or that may become due and payable, from the Procurer to the Company arising under or in respect of and in accordance with the PPA by payment into the account entitled the "Trust and Retention Account" bearing number 201003848365 maintained with IndusInd Bank Limited.

All references to the term, "Senior Lenders" and "Debenture Holders" shall mean persons providing financial assistance to the Company (including its assignees, transferees and novates), acting through their trustee or agent.

We request you to acknowledge the receipt of this letter and signify your agreement to the terms of this letter.

Yours faithfully,

For and on behalf of Azure Power Rooftop Five Pvt Ltd.

## Net Metering Inter Connection Agreement

1. This Agreement is made and entered into at \_\_\_\_\_ on this (date) \_\_\_\_\_ between the 'Eligible Consumer', by the name of **Govt. Girls PG College** having premises at (address) **GIRLS COLLEGE,, GARAM SADAK,MORAR** as first party AND Distribution Licensee Madhya Pradesh Madhya Kshetra Vidyut Vitran Company (here in after called as Discom) and represented by \_\_\_\_\_ (designation of office) and having its registered office at (address) \_\_\_\_\_ as second party of the agreement.

*[Signature]*  
PRINCIPAL

Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior

And whereas, the Discom agrees to provide grid connectivity to the Eligible Consumer for injection of the electricity generated from his renewable energy plan to capacity 25 kilowatt sin to the power system of Discom, as per conditions of this agreement, and MPERC (Net Metering) Regulations, 2015 issued by Madhya Pradesh Electricity Regulatory Commission, and Madhya Pradesh Policy for Decentralized Renewable Energy Systems, 2016. Both the parties hereby agree to as follows:

*[Signature]*  
PRINCIPAL

Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior

2. **Technical and Interconnection Requirements**

- 2.1 The Eligible Consumer agrees that his renewable energy generation plant and net metering system will conform to the standards and requirements specified in MPERC (Net Metering) Regulations, 2015 and Madhya Pradesh Policy for Decentralized Renewable Energy Systems, 2016, al also the following Regulations and codes, as amended from time to time:-

1. CFA's (Technical Standards for connectivity of the Distributed Generating Resources) Regulations, 2013.
2. Central Electricity Authority (Installation and Operation of Meters) Regulations, 2006.
3. Central Electricity Authority (Measures relating to safety and electric supply) Regulations, 2010.
4. MPERC Supply code Regulations, 2007.

*[Signature]*  
PRINCIPAL

Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior

- 2.2 Eligible Consumer agrees that he has installed or will install, prior to connection of Renewable Energy system to Discom's distribution system, an isolation device (both automatic and inbuilt within inverter and external manual relays) and agrees for the Discom to have access to the renewable energy system, if required for repair & maintenance of the distribution system.

51

- 23 Eligible Consumer agrees that in case of a power outage on Discom's system, Renewable Energy system will disconnect/isolate automatically and his plant will not inject power into Licensee's distribution system. **PRINCIPAL**  
Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior
- 24 All the equipment connected to distribution system shall be compliant with relevant International (IEEE/IEC) or Indian standards (BIS) and installations of electrical equipment must comply with Central Electricity Authority (Measures of Safety and Electricity Supply) Regulations, 2010.
- 25 Eligible Consumer agrees that licensee will specify the interface/interconnection point and metering point. **PRINCIPAL**  
Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior
- 26 Eligible Consumer and licensee agree to comply with the relevant CEA regulations and MPERC (Metering) Regulations, 2007 in respect of operation and maintenance of the plant, drawing and diagrams, site responsibility schedule, harmonics, synchronization, voltage, frequency, flicker, etc. **PRINCIPAL**  
Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior
- 27 Due to Discom's obligation to maintain a safe and reliable distribution system, Eligible Consumer agrees that, if it is determined by the Discom that Eligible Consumer's Renewable Energy system either causes damage to and/or produces adverse effects affecting other consumers or Discom's assets, Eligible Consumer will have to disconnect Renewable Energy system immediately from the distribution system upon direction from the Discom and correct the problems at his own expenses prior to a reconnection. **PRINCIPAL**  
Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior
- 28 The consumer shall be solely responsible for any accident to human being/animals whatsoever (fatal / non-fatal / departmental / non-departmental) that may occur due to back feeding from the SPG plant when the grid supply is off. The distribution licensee reserves the right to disconnect the consumer's installation at any time in the event of such exigencies to prevent accident or damage to man and material. **PRINCIPAL**  
Vijaya Raje Govt. Girls  
P. G. College, Morar, Gwalior

### 3 Clearances and Approvals

- 3.1 The Eligible Consumer shall obtain all the statutory & necessary approvals and clearances be for reconnecting the Renewable Energy system to the distribution system.

### 4 Access and Disconnection

**PRINCIPAL**  
Vijaya Raje Govt. Girls P. G. College  
Morar, Gwalior

- 4.1 Discom shall have access to metering equipment and disconnecting means of the renewable energy system, both automatic and manual, at all times.
- 4.2 In emergency or outage situation, where there is no access to the disconnecting means, both automatic and manual, such as a switch or breaker, Discom may disconnect service to the premises of the Eligible Consumer.

**5. Liabilities**

- 5.1 Eligible Consumer and Discom shall indemnify each other for damages or adverse effects from either party's negligence or intentional misconduct in the connecting and operation of Renewable Energy system or Discom's distribution system.

- 5.2 Discom and Eligible Consumer shall not be liable to each other for any loss of profits or revenues, business interruption losses, loss of contract or loss of goodwill, or for indirect, consequential, incidental or special damages, including, but not limited to, punitive or exemplary damages, whether any of the said liability, loss or damages arise in contract, or otherwise.

- 5.3 Discom shall not be liable for delivery or realization by Eligible Consumer for any fiscal or other incentive provided by the Central/State Government beyond the scope specified by the Commission in its relevant order.

- 5.4 The Discom may consider the quantum of electricity generation produced in the renewable energy system under net metering arrangement towards RPO. (Applicable only in case of Eligible Consumer who is not defined as an obligated Entity).

- 5.5 The proceeds from CDM benefits shall be retained by the Discom.

**6. Commercial Settlement**

- 6.1 All the commercial settlement under this agreement shall follow the Net Metering Regulations, 2015 issued by MPERC.

- 6.2 If there is surplus power generated after fulfilling captive consumption requirement at the end of the settlement period, the surplus power shall be compensated as per MPERC Net Metering Regulations, 2015 and amendments thereof. The unadjusted net credited units of electricity, at the end of each 'Settlement period', shall be purchased by the Distribution Licensee at its Average Pooled Cost of Power Purchase, as approved by the Commission for that year. The Distribution Licensee shall provide credit equivalent to the amount payable in the immediately succeeding Billing Cycle, and, if any credit still remains, then in the following Billing Cycle(s).

7. **Connection Costs**

- 7.1 The Eligible Consumer shall be a rail costs related to setting up of renewable energy system including metering and inter connection costs. The Eligible Consumer agrees to pay the actual cost of modifications and upgrades to the service line required to connect Renewable Energy system to the grid in case it is required.

8. **Termination**

- 8.1 The Eligible Consumer can terminate agreement at any time by providing Discom with 90 days prior notice.
- 8.2 Discom has the right to terminate Agreement on 30 days prior written notice, if Eligible Consumer commits breach of any of the terms of this Agreement or MPRC (Net Metering) Regulations, 2015 issued by the Madhya Pradesh Electricity Regulatory Commission or Madhya Pradesh Policy for Decentralized Renewable Energy System, 2016 and does not remedy the breach within 30 days of receiving written notice from Discom of the breach.
- 8.3 Eligible Consumer shall upon termination of this Agreement, disconnect the Renewable Energy system from Discom's distribution system in a timely manner and to Discom's satisfaction.

In witness, whereof, Mr./Mrs. Sushila Mahor for and on behalf Govt. Girls PG College (Eligible Consumer) and Mr./Mr. \_\_\_\_\_ for and on behalf of \_\_\_\_\_ Madhya Pradesh Madhya Kshetra Vidyut Vitran Company (Discom) sign this agreement in two originals.

Sir/Madam,

**Sub:** Submission of work completion report for system documentation requirements  
**Ref:** Our Application Registration No.:

With reference to the above, I hereby confirm to you that we have completed the work of installation of the renewable energy system and submit the following basic information for your perusal and request you to arrange to inspect and commission the system at the earliest:

**A. Details of the Solar PV module:**

1.	Model No.	ELDORA VSP.72.330.03.04
2.	Make with address	VikramSolar
3.	Capacity of each Module (Wp)	330 Wp
4.	No. of Modules	93 Nos
5.	Total Capacity (kWp)	30 kWp
6.	Date of Installation	

**B. Details of the Inverter**

1.	Make of the Inverter Manufacturer with address	Solis & Sungrow
2.	Model No.	Solis-20Kw
3.	AC capacity of individual inverter (kW)	30 kW
4.	No of the inverters installed	2 Nos.
5.	Total AC capacity of individual inverter (kW)	30 kW
6.	Serial Nos.	1107E2194040029 A1812110006
7.	Date of Installation

**Enclosures:**

1. Test report of net meter tested at the laboratory of the DISCOM
2. Copy of the IEC/IS Test certificates of PV modules, Inverter etc.
3. Data sheets/Drawing for the array mounting System.
4. Actual Single line wiring diagram (SLD) of the SPV System.
5. Copy of Interconnection Agreement on non-judicial stamp paper of Rs. 500/- with DISCOM.

### PROJECT SATISFACTION CERTIFICATE

Grid-connected Solar photovoltaic power plant of 30 KWp capacity is installed and commissioned partly/fully at Govt. Girl PG College, Morar Dist. Gwalior as per approval letter no. (Ref No.) MPUVN/GCRT/RESCO-I/Group-A/861 Dated: 02/07/2019 (MPUVN/GCRT/RESCO/2018-19/2868 Bhopal, Dated 27/09/2018) and is working satisfactorily. Details of the system are given below:-

#### 1. Details of Systems components installed:

S.N.	Particulars	No/Make/Capacity	
1	Solar module	No	93
		Capacity	330 Wp
		Make	Vikramsolar
2	Inverter	No	2 Nos
		Capacity	20 Kw & 10 Kw
		Make	Solis & Sungrow
3	Other system accessories junction boxes, distribution panel, etc.	Provided	
4	Any additional work done, please specify with full details	No

## Commissioning Certificate (Provisional) for grid connected solar photovoltaic power plant

Certified that a Grid Connected SPV Power Plant of 30 KWp Capacity has been installed at Govt. Girl PG College, Morar Dist Gwalior Madhya Pradesh (Beneficiary Organization) installed by M/s Azure Power Rooftop Five Pvt. Ltd. On 18/10/2019 is as per BIS/MNRE specifications/Standards. The System has been checked for its performance on 18/10/19 without installation of bi-directional meter and it is working satisfactorily. The system is suitable for installation of bi-directional energy meter or for captive requirement.

## Waste management and environmental policies

1. Waste management and environmental policies play a crucial role in promoting sustainability and maintaining a clean and healthy environment. These policies not only ensure the well-being of the current generation but also contribute to the preservation of resources for future generations. In this context, it is important to establish guidelines and practices that encourage responsible waste disposal, pollution control, and conservation efforts.
2. Firstly, it is imperative that students are educated about the importance of proper waste management. They should be discouraged from throwing or burying solid waste, especially non-biodegradable materials such as plastics. Instead, they should be encouraged to separate recyclable materials and dispose of them in designated recycling bins.
3. Burning solid waste is a harmful practice that releases harmful pollutants into the atmosphere. Therefore, colleges should strictly prohibit the burning of waste and implement alternative waste disposal methods such as recycling, composting, and proper landfilling.
4. Regular cleaning of road dust is crucial to prevent the accumulation of debris and pollutants on the streets. This can be achieved through scheduled cleaning activities and the use of appropriate cleaning equipment.
5. To control vehicle pollution, the college should enforce measures such as regular emission testing for vehicles on campus, promoting the use of public transportation or carpooling, and encouraging the adoption of electric vehicles.
6. Tree plantation along roadsides and the maintenance of various parks within the campus not only enhance the aesthetic appeal but also contribute to environmental conservation. These green spaces provide shade, improve air quality, and support biodiversity.

Morar, Gwalior (M.P.)

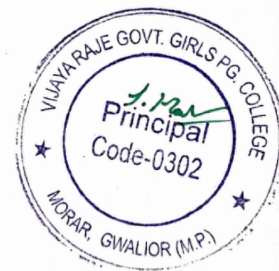

7. Water harvesting systems and solar panel installations are important sustainable practices that can help reduce dependence on external resources and minimize the college's carbon footprint. Rainwater harvesting can be utilized for irrigation purposes, while solar panels can generate renewable energy to power various facilities.
8. The implementation of a burmi compost project ensures the proper management of organic waste, reducing the amount of waste sent to landfills and producing nutrient-rich compost for gardening and landscaping purposes.
9. Bar coding of plantation helps monitor the growth and health of the trees and plants, enabling effective maintenance and conservation efforts.
10. Lastly, protection and preservation of peacock, which may be a symbol of local biodiversity, highlight the college's commitment to safeguarding native species and their habitats. In conclusion, an effective waste management and environmental policy framework is essential for maintaining a sustainable and healthy campus environment. By promoting responsible waste disposal, pollution control measures, conservation efforts, and the adoption of sustainable practices, colleges can create a positive impact on the environment and instill a sense of environmental stewardship in their students.
